

FOGARTY NEWS

FOR GLOBAL HEALTH RESEARCHERS AND PARTNERS

Fogarty International Center • National Institutes of Health • U.S. Department of Health and Human Services

COVID-19 is an emerging, rapidly evolving situation. Get the [latest public health information from CDC](#), and the [latest research information from NIH](#).

The coronavirus outbreak that began in late 2019 has focused the world's attention on how best to slow the transmission of, diagnose and treat COVID-19. Across the National Institutes of Health and at institutions supported by NIH, scientists are working to develop a vaccine, identify existing therapeutics and encourage coronavirus research.

The [National Institute of Allergy and Infectious Diseases \(NIAID\)](#) leads NIH's research and response on coronaviruses.

Resources for Researchers

To support the global health research community, Fogarty has assembled a collection of news, funding and other resources on the novel coronavirus.

- [Coronavirus news and resources for global health researchers](#) from Fogarty
- [Coronavirus information for NIH grant applicants and grant recipients](#) from the NIH Office of Extramural Research (OER)
- [LitCovid](#), a curated literature hub for tracking up-to-date scientific information about the 2019 novel Coronavirus from the U.S. National Library of Medicine's National Center for Biotechnology Information
- [Coronavirus disease 2019 R&D](#) from WHO, including a global research roadmap, and the latest reports on COVID-19 vaccines, therapeutics and diagnostics
- [Database of publications on coronavirus disease \(COVID-19\)](#) from WHO
