

Electronic Research Administration Team Updates

Andrew Sallans, Assistant Director of Electronic Research Administration

Nikita Mokhariwale, Senior Data Analyst

November 28, 2017

Communications

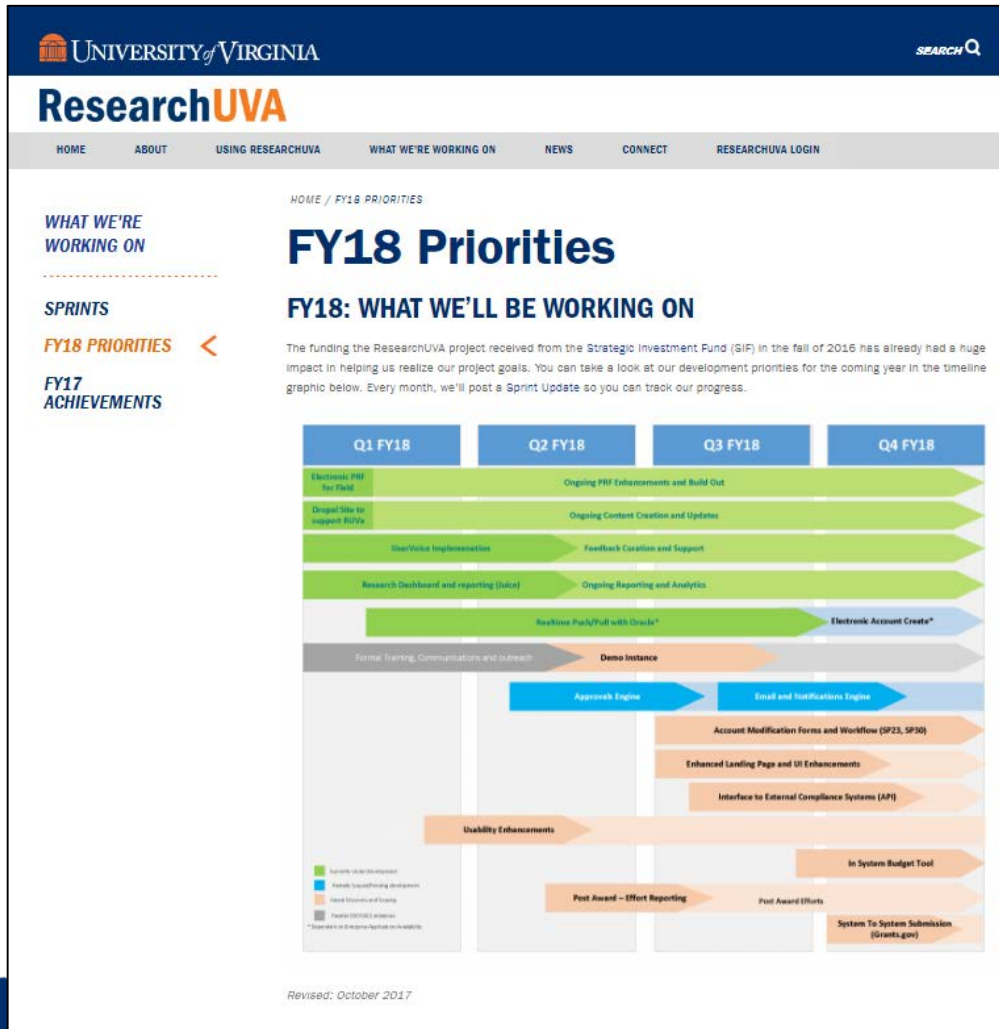

- New OSP website coming soon.
- Migration of general email lists to MailChimp to improve subscription management and distribution processes.
- New OSP contact sheet.

NEWS

ResearchUVA Development Updates

- Development is now organized into three-week cycles called Sprints. A summary of the plans and outcomes of each sprint is available here:
<http://info.researchuva.virginia.edu/sprints>
- Some highlights across the sprints:
 - Improvements in the ePRF workflow.
 - Modifications in handling of Non Funded Agreements (NFAs).
 - Changes in how award increments are tracked.
 - Removal of Non-Competing Continuations (NCCs) from the proposal process.
 - Improvements in data delivery for the Juice data feeds.
 - Preparation for real-time Oracle data access through ResearchUVA.

ResearchUVA Roadmap

- A longer view of the ResearchUVA development plan is available here: <https://info.researchuva.virginia.edu/fy18-priorities-0>
- The roadmap is color coded to show what is currently in development, planned, needs scoping, and is related. This will be updated as plans evolve.
- The design team meets regularly to discuss project status, plans, and make decisions for ongoing development activities.
- We welcome questions and comments via: researchUVA-help@virginia.edu

- Using data effectively offers the opportunity to achieve a competitive edge.
- Highlighting Key Performance Indicators.
- Snapshot of research activity.
- Proposals, Awards, and Expenditures at one place.
- Self-service, user-friendly, readiness & presentability.

Juice Training Progress

The screenshot shows the top navigation bar of the ResearchUVA website with the University of Virginia logo and a search icon. Below the navigation bar is the main heading 'Juice Demos Running this November' and a sub-heading 'LEARN MORE ABOUT WORKING WITH JUICE, A REPORTING AND ANALYTICS PLATFORM FOR SPONSORED PROGRAM DATA AT UVA'. The main text describes the launch of the Juice dashboard on October 30 and mentions training sessions in November. Two specific sessions are listed: Monday, November 6 @ 10 AM in Newcomb Hall and Monday, November 13 @ 3 PM in Bavaro Hall. A note at the bottom indicates separate sessions for SEAS and SOM users.

Juice Demos Running this November

LEARN MORE ABOUT WORKING WITH JUICE, A REPORTING AND ANALYTICS PLATFORM FOR SPONSORED PROGRAM DATA AT UVA

With the official launch of UVA's Juice dashboard within ResearchUVA on October 30, the UVA research community will have access to a wealth of analytics about UVA's research activity.

We'll be running the first hour-long training sessions in November to introduce attendees to the major features and capabilities of the dashboard, highlighting how to interact with the data to see trends and details across proposals, awards, expenditures, fiscal years, sponsors, departments, and many other dimensions. Presenters from the Office of Sponsored Program's Electronic Research Administration team will show attendees how to answer common questions on sponsored research activities while looking at year over year change within a subset of data. Presenters will also discuss limitations of the current data and future directions for the dashboard.

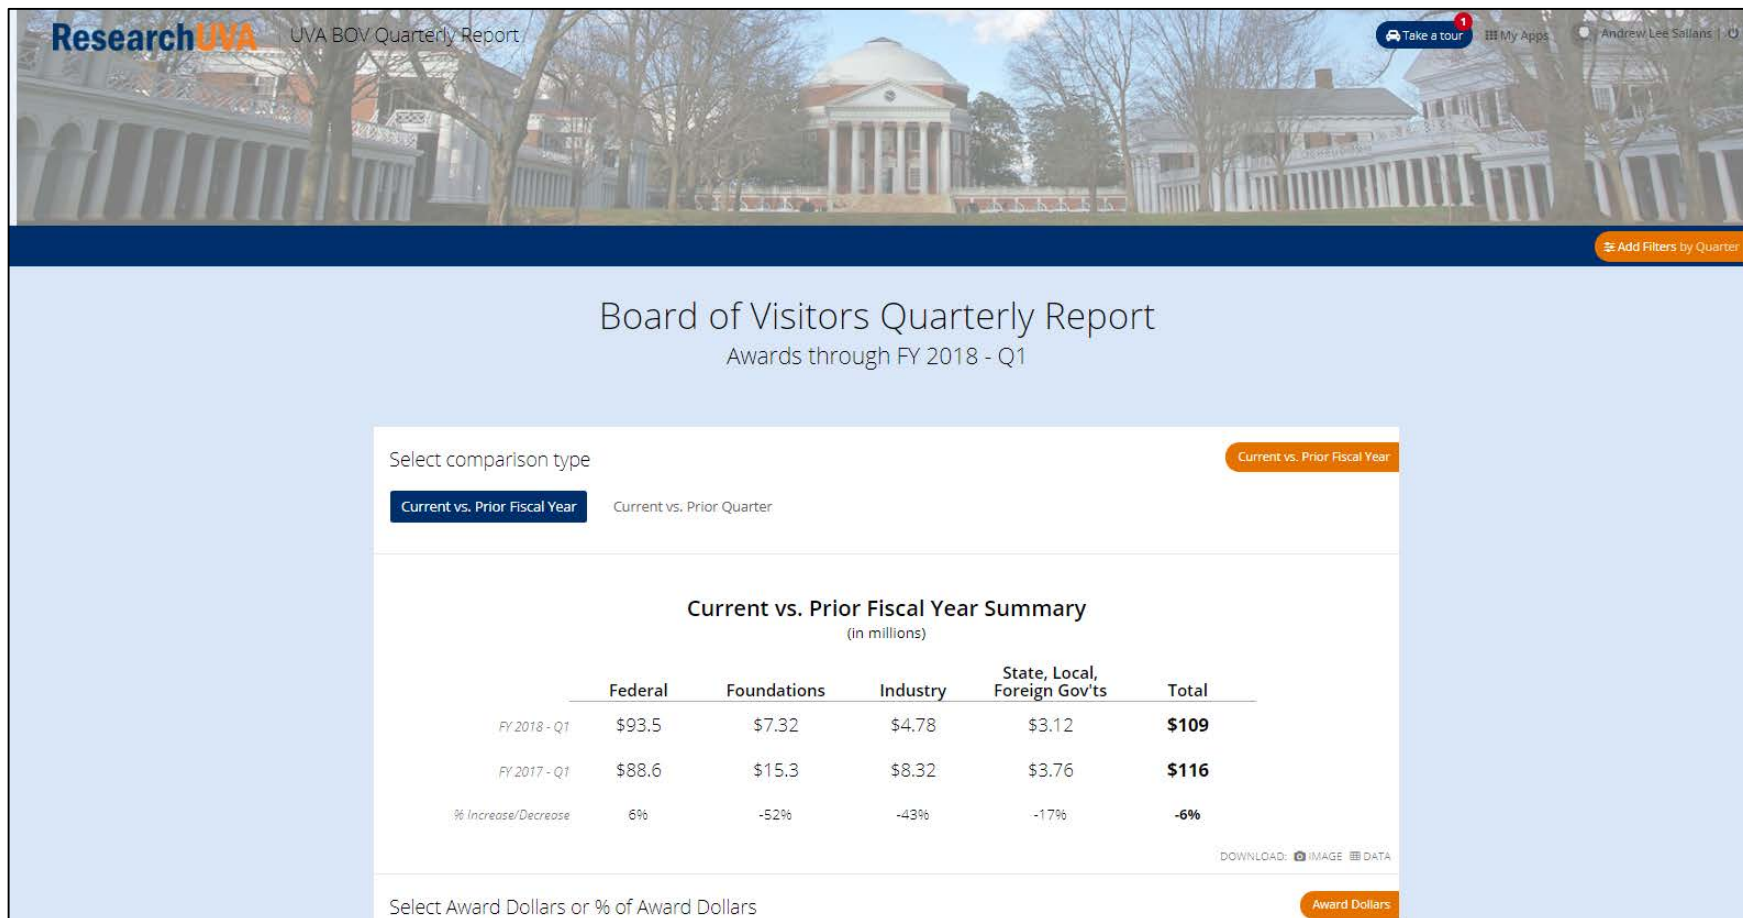

To register, 1) log into the Integrated System, and 2) click on the link below for the session you would like to attend.

- Monday, November 6 @ 10 AM: Newcomb Hall Commonwealth Room
- Monday, November 13 @ 3 PM: Bavaro Hall, Room 116

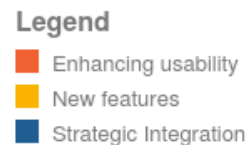

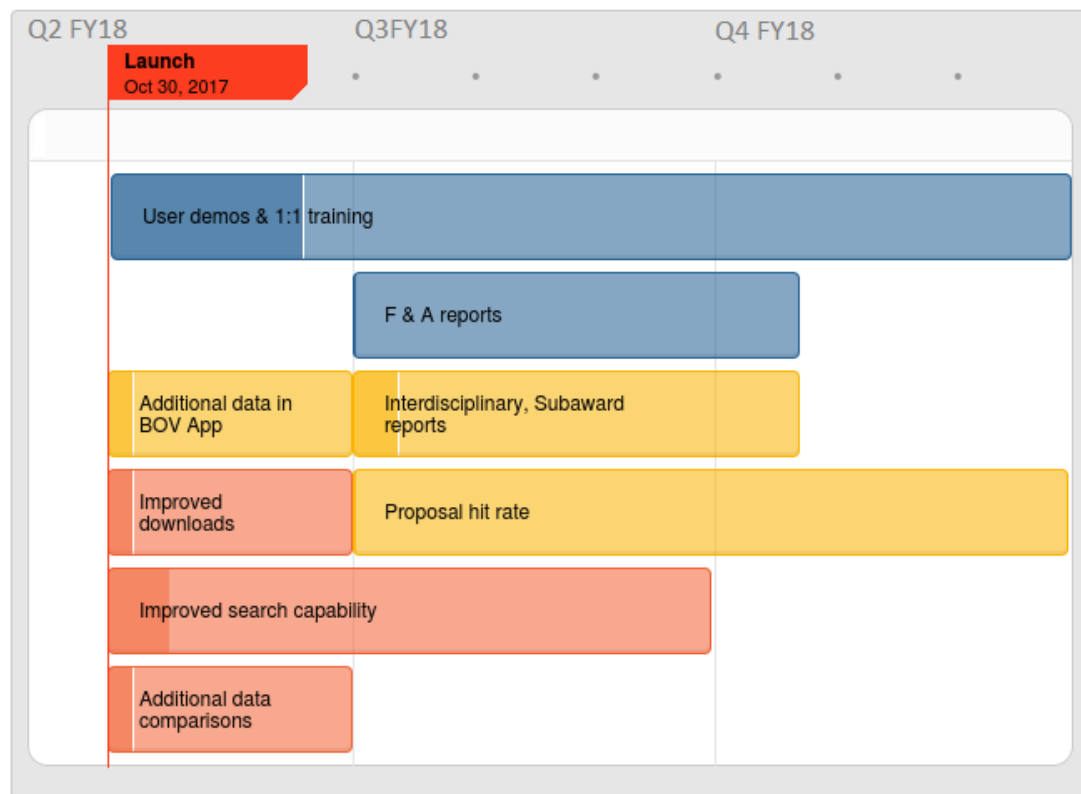

We'll be holding separate sessions for users in SEAS and SOM as well; please look for information from research administration in those schools.

- ~135 people trained so far.
- Attendees mainly from:
 - A&S
 - Batten
 - Curry
 - SEAS
 - SOM
- Interested in training for you or your team? Contact us at osp-infoteam@virginia.edu

Juice BOV Report

Juice Roadmap

- So far our focus was on presenting the transactional data in an intuitive and user friendly manner, while maintaining data integrity and combating data quality issues.
- Future plans include integration with other data enterprises.
- More KPIs within sponsored research – Interdisciplinary awards & sub-awards.
- Relevant data from outside of OSP, to close the data loop.

Juice Support

- 1) Access Juice through <http://researchuva.virginia.edu>.
Click the Juice link on the left menu bar to enter the app.
- 2) Visit help resources available on ResearchUVA website & Data cookbook.
- 3) Contact us for help. Email at osp-infoteam@Virginia.edu; we would be happy to meet you 1:1.
